Mr. William J. Casey  
Director  
Central Intelligence Agency  
Washington, D.C. 20505

Dear Mr. Casey:

SIGNAL Magazine, the official journal of the Armed Forces Communications and Electronics Association (AFCEA) is publishing an Intelligence Systems Issue in October 1983. As you know, this is certainly a most vital issue.

To set the tone for this most important issue of SIGNAL and because we feel it is important to include your viewpoint, we invite you to prepare a Guest Commentary on the subject of intelligence systems. I know our readers would benefit from sharing your candid thoughts on the subject.

What we have in mind is a 500 to 1,000 word commentary in which you would look at the subject of intelligence systems and philosophize from your background and position as to the need for the "I" in C<sup>3</sup>I and the need to rebuild our nation's intelligence resources. I do hope you will be able to provide us with your candid viewpoint as to the problems and possible solution in this area.

Our deadline for receiving the material is August 15, 1983.

I look forward to hearing from you shortly with a favorable response to our invitation.
